Experience

UX Engineer + Designer | Capital One

San Francisco, CA | 2017 - 2022

Designed and implemented front-end features for internal tools tracking emerging technologies using Sketch, Figma, Angular, and React. Delivered mockups and redesigned interfaces to accomodate new features and improve usability.

Freelance Web Designer + Developer | MIT

San Francisco, CA | 2023 - 2024

Designed and updated content for the MIT Open Documentary Lab's Wordpress site, improving usability and making features more accessible. Built an archival site compiling thousands of the sites news publications and articles.

Freelance Graphic Design

San Francisco, CA | 2019 - Present

Designed logos, branding, posters, and t-shirts for a recurring dance event at longstanding venue DNA Lounge.

Volunteering

UI/UX, RRRComputer.org

Made mock ups for a computer literacy and recycling nonprofit, Identified site painpoints and researched ways to increase clarity and drive user engagement

Program Development, YCore Fellowship

Partnered with local non-profit First Graduate to develop a strategy to increase long term alumni engagement, interviewed stakeholders and organized a trivia night fundraiser
